

356 UPPER VANITY MIRROR SOP INSTALLATION

#	Qty.	Description	Size	Part #
1	1	Vanity Mirror	356	425062
2	N/a	Liquid Nails	LN 601	101520

1. The vanity mirror is located on the top face of the upper vanity.
2. Clean the mounting area with alcohol.
3. Using liquid nails apply a generous amount on the backside of the mirror.
4. Place the mirror in position, the mirror should fit between the two trim pieces on the upper vanity.
5. Make sure the mirror is pushed up against the vanity face with no gaps between the vanity face and the mirror.
6. Clean up excess liquid nails using alcohol.
7. Tape around mirror to prevent it from sliding until liquid nails has set up.
