45cc Installation of security Pin For Spice Rack Sliding Doors

Security Pin Installation

1. Lift sliding door from the track to expose the notch in the corner of the slider. Ensure that the slider door is butted against the stops.
2. Mark the location of the hole for the pin to be centered on the spice rack divider and inside the notch on the door.
3. Drill the pin hole for a 3/16" pin, through the face of the spice rack and through the track into the divider.
4. Repeat procedure for other door.
5. Install the doors and pins.
