

# STANDARDS AND OPTIONS

Hunter Marine continues an aggressive product plan with the introduction of the new 426 Aft Cockpit Cruiser. The boat was drawn by noted designer Glenn Henderson and sports some rather intricate features not usually found on cruising boats of this size. First is a "Bow Hollow", which increases the flow of water in the forward sections and increases hull speed. Second is a "Stern Reflex", which allows a flatter exit wake and less turbulence. This also increases performance. Below, the 426 Aft Cockpit offers superior amenities and comfort. A unique forward stateroom layout featuring a Pullman style double berth provides plenty of space and storage. The salon is full beam and allows for entertaining and dining in grand style. Aft, is the master stateroom, which is enhanced by carrying the wide beam well aft. Inner spring mattresses are standard and the finely finished teak interior and cabinetry are first-class. Upgraded hardware and fabrics really make a difference.

## RIGGING

Boom Vang  
Dual Single Line Reefing Led Aft  
Full Roach Main with Flaking System  
Furler Furler with 110% Furling Jib  
Harken® Ball Bearing Mainsheet
