

INTRODUCING THE NEW HUNTER 23.5

Trailerability, comfort, quality and fun are the key components in the all new Hunter 23.5. And never before has this level of attention and effort been put forth to produce a sailboat that does so much, so well.

A water ballast system is central to the 23.5's ability to be easily trailered and yet able to sail. Additionally, the swing centerboard brings her minimum draft to only 18" for almost limitless gunkholing. Our unique mast raising system allows single handed rigging and reduced launch times.

The 23.5 has a large cockpit with centerboard controls and running rigging led aft for short handed sailing comfort and safety. Below is a spacious cabin with two double berths, convertible settees, a functional galley, and portable head tucked under the forward berth.

Discover the fresh thinking and attention to detail in the all new 23.5. Easy to sail, easy to trailer, and fun to own. A complete package at a tremendous value from America's sailboat leader...
Hunter Marine.

We go the Distance

CRUISE PAC®

While everyone else was complaining about the high cost of marine hardware and accessories, Hunter was doing something about it. The Hunter Cruise Pac® was developed to make all the accessories and hardware you need standard equipment. We buy top quality gear in very large quantities. The result? Equally large savings. The Hunter 23.5 Cruise Pac® isn't just sails, winches, and running rigging - it's things like portable toilet w/privacy curtain, galley, anchor, fire extinguisher, running lights, life jackets - even a copy of Chapman's *Piloting, Seamanship, and Small Boat Handling*. We invite you to compare the Standard Equipment list below with that of any other manufacturer. You'll discover that Hunter is going the distance for you with more - and better gear. For less.

RIGGING:

Full battens mainsail
110% genoa
Jiffy reefing
Anodized fractional rig
Internal halyards led to cockpit
(2) Winches
