

 HUNTER

38

# HUNTER 38

If you're looking for a sweet sailing midsize cruiser with maximum space and amenities, then look no further. The Hunter 38 offers more of everything on a sturdily constructed Glenn Henderson designed hull with a sleek and stylish profile.

The fractional sailplan delivers power without perspiration to the stable and easily driven hull shape for outstanding performance and maneuverability. The cockpit features a Plastiteak nonskid surface and a solid, direct drive steering system that provides fingertip control. An especially nice touch is a pair of dual stern rail seats. The "best seats in the house" are fully integrated into the cockpit design and firmly connected to the stainless cockpit Traveler Arch™. A Hunter trademark feature, the cockpit Traveler Arch™ reduces mainsheet load and places the traveler controls within easy reach of the helm.

A wide beam and strategic placement of the mast compression post open the salon to immense proportions for a 38 footer. The forward facing nav station and expansive galley loaded with storage space distinguish the Hunter 38 as a boat without compromise on interior comforts.

The aft stateroom spans the entire width of the boat providing room for dual hanging lockers, drop-in storage, dressing seats on both sides and private access to the head compartment. Forward, your crew will appreciate a cabin that has lots space to move around and organize their personal gear.

As with all Hunters, quality components and easy systems access reduce maintenance time so you can relax. Visit your Hunter dealer today for a firsthand look at how much more a 38 footer can be.
