30 YEARS

HUNTER 140

The unsinkable Hunter 140 is perfect for sail training at clubs, camps and sailing schools. This boat offers great performance with a powerful main and easy to manage jib, but it is also easy to sail, no matter the proficiency level. The durable ACP construction combines thermoformed UV protected plastic with fiberglass mat and injected foam to make a hull that is five times as impact resistant than conventional fiberglass and is unsinkable. All this at a price to fit any budget.
