HUNTER 90

Hunter Marine Corporation has been a leader in sailing innovation for over 25 years. Warren Luhrs set out to build a no nonsense sailboat that was truly affordable to the average sailor. He also took his ideas and many others to sea in his offshore racing boats. But the single most important resource in building Hunter to an industry leader has been the Hunter Owner. Their enthusiasm has spawned thousands of great ideas and suggestions on how to make our boats easier to sail, more comfortable and perform better.
